

I have not seen "Stolen Honor," but Sinclair Broadcasting executives have described it as dealing with John Kerry's anti-war activities. They have acknowledged that the documentary is one-sided but justified presenting it as a documentary by claiming that an invitation to Mr. Kerry to participate in the program balances that perspective.

"Stolen Honor" is clearly a partisan perspective. It was created by partisans AS a partisan perspective, in order to discourage viewers from supporting Mr. Kerry, and there is no reason to broadcast it except to discourage viewers from supporting Mr. Kerry.

Please do not allow Sinclair Broadcasting to violate the public trust by co-opting public airwaves to advance their own political agenda. We deserve better and the law demands better.

Thank you.
